Freedom of Information Request 20 230

Our Reference:	**FOI 20 230 / AA / LA / IO**
Name:	
Date:	**24 December 2020**
Address:	

Dear

Further to your Freedom of Information Request, please find the Trust's response below:

Please could you assist by answering the following questions
1. What is the name of the main IT Solution used within the Emergency Department setting? 'An Emergency Department Information System (EDIS) is an extended EHR system used to manage data in. support of Emergency Department patient care and operations. The functions of an EDIS may be provided by a single application or multiple applications.' For example: Symphony, DXC EDIS
Humber Teaching NHS Foundation Trust ('The Trust') does not provide cancer services. The Trust is a multi-specialty provider of mental health, primary care and community services. The Trust does not operate an Emergency Department, but we do operate a Minor Injury Unit at Whitby. This service records on SystmOne from TPP.

2. What is the name of the PAS your Trust currently has installed? 'Patient Administration Systems (often abbreviated to PAS) developed out of the automation of administrative paperwork in healthcare organisations, particularly hospitals, and are one of the core components of a hospital's IT infrastructure.' For example: Servelec Rio, System C Medway
The Trust PAS and EPR are the same system. Please see the response to question 5.

3. What is the name of the Main Community Solution, used for Community and District Nursing? For example: TPP SystmOne, Advanced CareNotes, Servelec Rio
The Trust Community Services record on SystmOne from TPP.

4. What is the name of the Clinical Noting Solution used within the Trust? 'Clinical Noting Solution is fully-auditable electronic notes platform that allows clinicians to search, analyse and annotate patient case notes.' For example: G2 Speech, Meditech, DXC Lorenzo
The Trust use SystmOne from TPP and Lorenzo from DXC for clinical noting.

5. What is the name of the Trusts EPR Solution? 'EPR (electronic patient record system) will mean all patient information will be available electronically, on screen, at any hospital location, at any time. For example: DXC Lorenzo, Servelec Rio, System C Medway
The Trust use SystmOne from TPP, Lorenzo from DXC and PCMis from the University of York to hold the Trusts Electronic Patient Records.

6. What is the name of the Pharmacy Stock Management Solution used within the Trust? 'Pharmacy inventory management involves the processes of ordering, receiving, and storing drugs, with the aim of ensuring drug availability while keeping costs down and working within storage capacity constraints' For example: EMIS, JAC

Electronic Prescribing and Medicine Management are carried out in DXC Lorenzo and TPP SystmOne.

7. What is the name of the In-Patient e Prescribing solution used within the Trust? 'E-prescribing, or electronic prescribing is a technology that allows physicians and other medical practitioners to write and send prescriptions to a participating pharmacy electronically instead of using handwritten or faxed notes or calling in prescriptions.' For example: Meditech, EMIS, Cerner Millenium

The Trust use DXC Lorenzo and TPP SystmOne.

8. What is the name of the Out-Patient e Prescribing solution used within the Trust? 'E-prescribing, or electronic prescribing is a technology framework that allows physicians and other medical practitioners to write and send prescriptions to a participating pharmacy electronically instead of using handwritten or faxed notes or calling in prescriptions.' For example: Meditech, EMIS, Cerner Millenium

The Trust use DXC Lorenzo and TPP SystmOne.

9. What is the name of the Order Communication Solution used within the Trust? 'Order Communications System (OCS) allows diagnostic tests and treatment services to be ordered instantly.' For example: Sunquest ICE, Civica Paris

DXC Lorenzo provided by Hull University Hospitals. The Trust are implementing this capability within our own version of Lorenzo in 2020/21.

10. What is the name of the Diagnostic Reporting Solution used within the Trust? 'Electronic requesting and results reporting service, a web-based requesting and result reporting system that has been designed to operate within primary and secondary care. Usually used for Radiology, Cardiology and Laboratory reporting' For example: CliniSys Cyberlab, EMIS Review, DxC RadCentre, GE PACS, In-House.

DXC Lorenzo provided by Hull University Hospitals. The Trust are implementing this capability within our own version of Lorenzo in 2020/21.

Kind regards,

Freedom of Information Team
